### FITNESS FOR DUTY

The Las Cruces Fire Department may require an employee to undergo a fitness-for-duty

Agreement Between the City of Las Cruces and  
The Las Cruces Professional Fire Fighters Association  
International Association of Fire Fighters  
Local 2362  
2017/2020

examination when there is a reasonable belief, based on objective information obtained or reasonably available, that the employee's ability to perform essential job functions will be impaired by a medical condition or that he/she will pose a direct threat due to a medical condition. The need for a medical evaluation must be clearly supported by the nature of the work and objective medical or other factual information. The examination shall be conducted by a medical professional selected by the CITY. All costs associated with such an examination will be borne by the Department in which the employee is assigned.

If an employee is impaired in his/her capability to safely and effectively complete work assignments, and a fitness-for-duty examination supports this conclusion, options may include:

1. Transferring the employee to a vacant position for which the employee is qualified and that accommodates his/her medical condition limitations;
2. Accommodating the employee in his/her current position by modifying work assignments and/or the work environment;
3. Accommodating the employee by re-assigning him/her to light duty status and providing an opportunity for rehabilitation;
4. Or, if an accommodation is not feasible in enabling the employee to perform the essential functions of the job held or vacant positions for which the employee is qualified are not available, and if an accommodation does not reduce any direct threat issues to an acceptable level, the employee may be medically retired or terminated. When an employee is assigned to a vacant position their pay will be adjusted commensurate with the pay rate for that position.

PROCEDURE:

If the Las Cruces Fire Department has an employee with a medical condition which appears to impair his/her capabilities to safely and effectively perform the essential functions of the job, or who poses a direct threat due to a medical condition, the Human Resources Director shall be contacted pertaining to a possible fitness for duty examination. The Department must be prepared to discuss the following:

1. What objective evidence supports the need for a fitness for duty examination?
2. What is the reasonable belief that the employee's ability to perform essential job duties is impaired?
3. What is the basis for any belief of direct threat?
4. What knowledge exists that performance issues are linked to a medical condition?

If the answers to these questions indicate to the Human Resources Department Director the need for further evaluation, then the CITY shall proceed with the following:

1. A psychiatric examination or psychological assessment must be conducted in accordance with accepted professional standards by a licensed practitioner or physician authorized to conduct such examinations, and may only be used to make a legitimate inquiry into a person's mental fitness to successfully perform the essential functions of his/her position without direct threat to the individual in question or to others.
2. The scope of any fitness for duty examination shall be limited to the specific medical condition and how such condition affects or may affect the employee's ability to perform essential functions or pose a direct threat.

Agreement Between the City of Las Cruces and  
The Las Cruces Professional Fire Fighters Association  
International Association of Fire Fighters  
Local 2362  
2017/2020

3. All medical information obtained through the fitness for duty provisions shall be maintained by the Human Resources Department as strictly confidential and shall not be a part of the employee's personnel file.
4. When the Las Cruces Fire Department requests a medical examination, it must inform the employee in writing of its reasons for doing so and the consequences of failure to cooperate. The CITY will designate the examining physician or other appropriate practitioner, but will offer the individual an opportunity to submit medical documentation from his/her personal physician or practitioner. The CITY will review and consider all such documentation supplied by the individuals' personal physician or practitioner along with the documentation from the examining physician selected by the CITY. Should the employee wish to submit medical documentation from his/her personal physician or practitioner, the employee shall pay for all examinations and documentation charges.
5. Any employee who refuses to undergo a required fitness for duty examination shall be found insubordinate and subject to discipline up to and including termination.

If the illness or injury shall exceed two (2) weeks duration then the following Return to Duty procedures may be applicable. This shall be determined on a case-by-case basis. This Article shall also apply to employees who fail to successfully complete their annual Physical Ability Test.

Prior to returning to duty from any extended illness or injury (greater than five consecutive shifts for 56 hour personnel or two weeks for 40 hour personnel) a doctor's "return to work" statement shall be obtained from the attending physician. A doctor's "return to work" statement shall also be required for any on-the-job injury where a physician evaluated the employee. The doctor's "return to work" statement shall be presented to the employee's Battalion Chief prior to reporting to his/her assigned workstation.

In the case of illness or injury where the employee was absent from work for a period of more than 30 calendar days, the employee shall be required to complete the Physical Performance Evaluation (Agility Test) prior to return to full duty. When the employee's Battalion Chief receives the doctor's "return to work" statement, the employee will be scheduled for the Physical Ability Test. In the event the employee is unable to successfully complete the Physical Ability Test he/she shall not be considered fit for duty and shall not be allowed to return to full duty. The employee shall begin the steps as outlined in this section to become qualified fit for duty.

  7. After a period of up to thirty (30) calendar days, the employee shall be scheduled for a second Physical Ability Test. Upon successful completion of the evaluation the employee shall be allowed to return to full duty. If the employee is again unsuccessful in completing the Physical Ability Test, he/she shall continue in this program. After each successive time period, the employee shall be re-evaluated.
  8. In no case shall an employee be allowed to continue beyond a maximum time period of ninety (90) days. At this point if the employee is unable to return to full duty, an evaluation shall be conducted by the Disability Review Team to identify options available to the employee which may include consideration for additional recovery time as a consideration under the Americans With Disability Act, medical retirement or termination.
