Parks and Recreation Advisory Board Agenda

PARKS AND RECREATION ADVISORY BOARD MEETING
WILL BE HELD ON APRIL 15, 2021 AT 6:00 P.M. via ZOOM WEBINAR

The health, safety and well-being of our residents and businesses are a top priority for the Parks and Recreation Advisory Board and Parks and Recreation Leadership. As such, and consistent with and in support of the direction from Gov. Michelle Lujan Grisham and the New Mexico Department of Health Public Health Order, the Parks and Recreation Advisory Board Meeting will be held via Zoom webinar.

To view meeting, register in advance for this webinar: https://zoom.us/webinar/register/WN_hs33Ar5OQeCnRKZCT-X4iA

After registering, you will receive a confirmation email containing information about joining the webinar.

In an effort to seek public input, we ask that if you have comments/concerns/questions, please e-mail parksandrecadmin@las-cruces.org 24 hours before the meeting.

1. Introductions
2. Conflict of Interest
   
   At the opening of each meeting, the chairperson shall ask if any member on the Board or City staff has any known conflict of interest with any item on the agenda.

3. Approval of Agenda
4. Approval of Minutes

4.1. Correction of Parks & Recreation Preapproved Minutes of February 18, 2021

   Documents:

   PRAB MINUTES 02182021 REVISED.PDF

4.2. Parks & Recreation Advisory Board Minutes of 3/18/2021

   Documents:

   PRAB MINUTES 03182021.PDF

5. Public Participation
6. Discussion Items

6.1. Reopening Leagues & Associations - Franco Granillo, Parks Administrator
6.2. Parks & Recreation Projects - Cathy Mathews, Landscape Architect

7. Staff Member Comments

8. Board Member Comments

9. Adjournment

If you need an accommodation for a disability to enable you to fully participate in this event, please contact us 72 hours before the event at 541-2550.

The City of Las Cruces does not discriminate on the basis of race, color, national origin, sex, sexual orientation, gender identity, religion, age or disability in employment or the provision of services.

Posted: April 9, 2021
The Parks and Recreation Advisory Board held a meeting on February 18, 2021 at 6:01 p.m. via zoom webinar.

Parks and Recreation Advisory Board Members Present:

Cassie McClure – District 1
Stan Engle – District 4
Eric Montgomery – District 5
Megan Schuller – District 6
Jeff Thompson – District 2

Parks and Recreation Advisory Board Members Absent:
Eli Guzman n- At Large
Marilyn Zahler – District 3

Others Present:

Phil Catanach, Recreation Administrator, Parks & Recreation
Sonya Delgado, Director of Parks & Recreation
Franco Granillo, Parks Administrator, Parks & Recreation
Catherine Mathews, Landscape Architect, Parks & Recreation
Hazel Nevarez, Senior Office Manager, Parks & Recreation
Robert Nunez, Youth Services Administrator, Parks & Recreation
James Woods, Keep Las Cruces Beautiful Coordinator
Sreedevi Bhathala Mohanraj, Architect, Public Works
Jennifer Morrow, Interim Engineering Administrator, Public Works
Jimmy Moreno, Construction Management Administrator, Public Works
David Villarreal, Project Manager, Construction Management, Public Works
Alex Flores, Property Project Manager, Construction Management, Public Works
Arturo Gonzalez, Program Manager, ECM International
Ikani Taumoepeau, Assistant City Manager
Tony Trevino, Interim Deputy Director, Public Works
Gregory Shervanick, Public

The Parks and Recreation Advisory Board Meeting of February 18, 2021 via Zoom webinar and was brought to order at 6:01 p.m. by Chair McClure and recognized as having a legal quorum.

1. Introductions

1.1 Parks and Recreation Advisory Board Members

Board members introduced themselves and stated the district they represent.

1.2 Parks and Recreation Staff
Staff introduced themselves and stated their position.

2. Conflict of Interest

No Conflict of Interest.

3. Approval of Agenda

Ms. Schuller moved to accept agenda as presented, seconded by Mr. Engle. There was no discussion. Motion carried unanimously.

4. Approval of Minutes

Ms. Schuller moved to approve minutes of January 14, 2021, seconded by Mr. Engle.

Jeff Thompson, District 2 - Aye
Stan Engle, District 4 - Aye
Megan Schuller, District 6 - Aye
Cassie McClure, District 1 - Aye

Motion carried unanimously.

Mr. Thompson moved to approve the minutes of January 21, 2021 as amended, seconded by Ms. Schuller. Motion carried unanimously.

Jeff Thompson, District 2 - Aye
Stan Engle, District 4 - Aye
Megan Schuller, District 6 - Aye
Cassie McClure, District 1 - Aye

5. Public Participation

There was no public participation.

6. Action Items

There were no action items.

7. Discussion Items

7.1 Parks & Recreation Go Bond Projects Update – Public Works

Ms. Jennifer Morrow provided a Power Point presentation to the Board on Go Bond Program Update.
Ms. Morrow reported the Hadley Recreation Complex is 52% complete with estimated completion date of February 23, 2021. She reviewed status on items pending completion and items completed at Maag Ball Field and Harty Ball Field. Ms. Morrow reported Maag is ahead of schedule, Hardy is on schedule, Paz and Ron Galla lighting is planned for later, and irrigation is on schedule. Ms. Morrow reported actual expenses are above planned expenses which is partly towards the lighting.

Ms. Morrow reported on Parks & Sports Courts status. She reported Lion’s Park tennis courts are complete and said the pickle ball community is using two of the courts while the courts at Apodaca are being worked on. The fencing, trees, light pole installations and removals at Apodaca has started. Estimated completion for Apodaca is May 2021. Ms. Morrow reported Desert Trails has been completed pending final punch list and the park is open to the public. Ms. Morrow reported demolition at Young Park has started. Ms. Morrow said Desert Trails walking trail is ahead of schedule and Klein Park, Hillrise Park, Fourhills Park, Papen Community Center, and Benavidez Community Center are scheduled for later this year. She reported status is at 26% on time and 32% on cash.

Ms. Morrow reported Unidad Park is scheduled to deliver 90% in a week. She said plan went from a splash pad without circulation to one with a recirculation system in it which will require additional design, and additional time from NMED for review, so the schedule has been updated accordingly. Ms. Morrow said they are hoping to advertise the RFP the middle of June 2021.

Ms. Morrow reported the East Mesa Public Rec Complex is at 95% design. She said they are looking to get this out to bid in a week.

Ms. Morrow reported the RFP’s for the two Dog Parks, one located at Rinconada & Bataan Memorial and the other at Burn Lake, were opened and the SAC committee selected the highest scored contractor. She said Public Works is currently in negotiations with the contractor. If negotiations are successful, next step is to seek Council approval.

Ms. Morrow reported having 95% construction documents under review on the Walking, Jogging, Biking Trails. She said they have most of the EBID permits and are working with EBID to review the trails and give their input.

Ms. Morrow reported they are in good shape with the overall schedule. They are in still in design of East Mesa Complex, Unidad Playground, into construction 1/3 of the way on E. Hadley, Parks and Sports Courts, starting construction on the Recreation Trails, and in negotiations from the bidding on Dog Parks. Ms. Morrow displayed program budget and noted the amounts shown for East Hadley Recreation Center, Park and Sports Courts, and Walking, Jogging, Biking are actual numbers from a contractor, and the East Mesa Public Recreation Center, Unidad Playground, and the Dog Park are the engineer’s estimate.

7.2 Keep Las Cruces Beautiful (KLCB) Youth Conservation Corp (YCC) – Robert Nunez, Youth Services Administrator
Mr. Robert Nunez presented a Power Point presentation on the Youth Conservation Corp Mural Project, with a summation of the process from receiving the grant, to hiring of crew members and facilitator, of trainings covered, identifying, and choosing location, creating design concept, presenting to the Las Cruces Art Board and Parks and Recreation Advisory Board for review and approval, and finally starting and finishing mural. Mr. Nunez reported it was a six-week project with crew salaries totaling $27,648, supplies, $2,788 and City Match of $12,193.

Mr. James Woods acknowledged his staff, Francisco Ontiveros and Luis Vasquez, for their help in preparing the tunnel for paint. He said he also hired a NMSU work-study, Breanna Yazzie, who also assisted the Youth crew members. Mr. Woods informed the Board the Youth Conservation Corps crew members consisted of Stephanie Villegas, Remy McDowell, Christian Cruz, Josef Buckingham, Kimberly Esparza, Kimberly Riley, Marina Vasconcellos, and Facilitator leading the project, Laramie Medina. Before, during, and after pictures of Triviz Multi-Use Path Access Tunnel to show progress and final view of mural were provided in the Power Point presentation. Mr. Woods noted there was one frame of the mural, a mantel with sports equipment on it and jerseys hanging, which the YCC Corps head office wants to use on their website as it symbolizes what the youth went through this past year not being able to play sports during the COVID-19 pandemic.

Mr. Thompson said he had a chance to see the finished project and it is spectacular and should be proud of the crew – it was well done.

Mr. Engle said the mural looks great and thanks to Mr. Woods and the students who did the hard work.

Chair McClure said the mural looks great and use of the picture on the website is awesome. She hopes more projects like this can be done, especially now because youth need more social interaction and this project was done in a very responsible way and it is a benefit for the community. She thanked Mr. Woods for guiding this project along.

7.3 Keep Las Cruces Beautiful (KLCB) Update – James Woods, KLCB Program Coordinator

Mr. Woods informed the Board a lot of Keep Las Cruces Beautiful (KLCB) programming has been at a standstill. Supplies were offered to the community to be able to do clean ups on their own – some groups cleaned the river and the desert area in the Dona Ana. He said in going to yellow, they should be able to get some small groups to do some cleanups, try to get back to rescheduling some district cleans ups - Team Up to Clean Up. Mr. Woods said staff has been able to continue to take care of graffiti abatements. Mr. Woods said as Dona Ana moves into yellow status, staff should be able to do some more organized type of clean ups and offer more resources for the community to get more involved.

Ms. McClure asked if KLCB is working with the Picacho Arts District as she saw a graffiti sign saying Keep Las Cruces Beautiful. Mr. Woods said he hasn’t but will reach out to them to see what they are all about.
7.4 New Park Resolution – Sonya Delgado, Director of Parks & Recreation

Ms. Delgado updated the Board on the new park for District 5. Parks and Recreation has a funding source to purchase land and equip for the new park, approximately $675,000.00. A few parcels have been found and staff is working with Land Management to reach out to owners to see if they are interested in selling. Staff is working with Community Engagement to put together a plan to make outreach to neighbors where park will be located to get feedback on amenities and things community is looking for in the park. Ms. Delgado said items that need to be considered to make sure property is going to fit our needs is access to park, lighting, security, if there is on street parking and if not, could a parking lot be added, and making sure park isn’t on a major road or one that is going to be expanded. Ms. Delgado said they also work closely with Public Works. Park is due to be in its completion by January 2021.

Ms. Schuller asked what the average acreage is for the park. Ms. Delgado said two acres.

Mr. Engle asked if funding source is from the Phillipou lawsuit. Ms. Delgado said yes.

7.5 FY22 Budget Requests – Sonya Delgado, Director of Parks & Recreation

Ms. Delgado informed the Board on Parks and Recreation Fiscal Year 22 proposed budget requests. Budget is under $2 million and are tied to PEAK goals:

<table>
<thead>
<tr>
<th>Personnel</th>
<th>$9.6M</th>
</tr>
</thead>
<tbody>
<tr>
<td>Operating</td>
<td>$4.7M</td>
</tr>
<tr>
<td>Capital</td>
<td>$444,000</td>
</tr>
<tr>
<td>Total</td>
<td>14.7M</td>
</tr>
</tbody>
</table>

Ms. Delgado informed the Board personnel dollars requested is for a Parks District Manager, Project Manager, personnel for the new 50 Meter Pool, Youth Program Monitors, Youth Program Specialists (increased hours), Park Maintenance workers for a Trail Crew and for South District, and a Deputy Director.

Ms. Delgado informed the Board operating dollars requested is for special projects, increase in utilities, KLCB-graffiti abatement, park amenities replacement, 50 Meter Pool (Operations) and park supplies.

Ms. Delgado informed the Board capital dollars requested is for shade structure, Water Smart Grant match, Regional Aquatic Center dehumidifier, Juvenile Citation Program (JCP) exterior repair/replacement, Meerscheidt Recreation Center bathroom/locker room floor replacement and Safe Haven exterior/renovation. Ms. Delgado noted these are General Fund requests only.

Mr. Thompson, District 2, asked what the projected offset revenue would be for the 50-meter pool. Ms. Delgado said at this point no, but per the Fees and Charges policy, aim is to reach 33% recovery. Ms. Delgado said this isn’t hit with the current aquatic center and outdoor facilities with the reason being the fees are very low.
Ms. Schuller asked if cost for new projects and need for additional park maintenance staff was captured in this budget. Ms. Delgado said yes.

Ms. McClure asked for information on Youth Monitors. Ms. Delgado said they are part-time, currently at 20 hours per person, and need to be moved up to 30 hours (benefits kick in at 30 hours). Ms. Delgado said this will help because many of these Youth Monitors start as students and Parks and Recreation would like to give them a place where they can start thinking about benefits and choosing Parks and Recreation as a career. Ms. Delgado added the increase in hours will also give Youth Monitors an opportunity to earn some annual leave.

8. Staff Member Comments

Ms. Delgado informed the Board staff is working on the budget and once final budget is approved, it will be brought back to the Board. Staff is also looking for land for the new park.

Mr. Granillo informed the Board he will be reporting to the Board at the next meeting the maintenance impact to the department when a new facility is received, to staff and budget. He gave a quick rundown of facilities that are already maintained:

- Over 300 miles of medians and right of ways
- 299 alleys and all the highway interchanges
- 100 parks
- 37 city building landscapes (which staff manages contract), three directly for Parks and Recreation which are Frank O’Brien Papen Community Center, Regional Aquatic Center, and Meerscheidt Recreation Center, and zone management for downtown – Plaza de Las Cruces, City Hall, and Young Park.
- Athletic fields section – take care of 45 to 50 miles of trails once Go Bond is implemented, currently under 40, five baseball and softball complexes, two multiuse complexes – Soldados and Provencio Van Dame, two soccer complexes – Burn, and High Noon Soccer which is not ours yet, but we maintain, five specialty ranges.
- Community Forestry Program which is responsible for planting 300 trees annually and responsible for removing hazardous trees and giving advice to community giving advise regarding planting of trees and shrubbery.
- Construction crew which supports the special projects team, athletics, parks, community forestry, medians and right of ways, and maintains sports courts.
- Staff also assists with events in different departments of the city, Keep Las Cruces Beautiful cleanups, recreation movies and music.

Ms. Mathews informed the Board her section continues to work on their projects, and reviewed the top ten:

- Skatepark renovation project – request for proposals for design build has been advertised and anticipate having under contract in the next two months.
• In process of receiving grant for the Apodaca Park Splash Pad Aquatic playground and multiuse trail. The cultural resources study has been completed.
• Parks security and lighting project at Veterans Memorial Park. The electrical upgrades to ensure the project is successful has been completed. Light fixtures have been selected.
• In negotiations with the consultant to do design portion for the Recreation Trails Program (RTP) grant for the Las Cruces Lateral Trail project. Should be under contract soon.
• Smart Controllers project with the Water Smart Project – have quote for getting booster pumps for the irrigation systems at Apodaca Park and Soldados multiuse fields and confirming scope of work.
• Lighting upgrades for Women’s Veteran Monument. Contractor discovered an out of code condition with grounding wires so working on a change order.
• City Bond median landscapes are continuing – Phase 1 portion, near completion as far as construction goes, still quite a bit of work to be done on a few of the medians and a punch list items to be addressed on a number of the medians.
• Highland Park is getting ready to move into construction.
• Lohman Avenue and Roadrunner medians – have funding for the design and are writing the request for proposal.
• AARP Fitlot project – have met with the supplier of the equipment, reviewed site conditions, and went over installation requirements. Supplier is providing quote to AARP. Installation should start in March and completed before August.

Mr. Nunez informed the Board the Out of School Program is offering tutoring sessions for Kindergarten thru 5th grade, and 6th thru 12th grade. He said the teen tutoring sessions are about 90% full. He said the Las Cruces Public Schools will be going to a hybrid offering beginning with high school so staff will be collecting data to see if there will be any vacancies. He said the K-5 has seen some increases. Mr. Nunez said staff is looking at offering a fun filled traditional spring break recreational program – communicating with Department of Health and City Management. Staff is also preparing for summer programs, coordinating activities and outings with various non-profits, preparing to set up some agreements with those organizations.

Mr. Nunez informed the Board the Juvenile Citation Program is still virtual. Staff are offering classes and working with subcontractor to identify alternative programing to expend grant funds.

Mr. Nunez informed the Board Keep Las Cruces Beautiful program has received the green light to offer some additional programming so over the next four months will be getting out to various districts and offering some opportunities for the community to assist in beautifying the community.

Mr. Catanach informed the Board the league gym wooden floor is being replaced at Meerscheidt Recreation Center. He said the athletic staff is looking at how they can move forward with sports in the near future and are currently working on active movement and sport skills activities that can be offered outdoors – schedule should be out by mid-March.
Mr. Catanach informed the Board recreation staff has been working on ideas for activities as Dona Ana moves into the yellow status under Covid-19. He said videos are posted on Facebook of sports skills, crocheting, arts and crafts skills, nutrition, and the Parks and Recreation two step video from last summer.

Mr. Catanach informed the Board Aquatic staff was able to fix the broken filtration system and were able to open the Regional Aquatic Center for lap swim and channel walk (by appointment). He said Frenger pool has been open for lap swim with temperature of pool maintained between 78 and 80 degrees. Mr. Catanach said the fitness area at the Regional Aquatic Center is open for ten or less (people) a session by appointment. Mr. Catanach added safety protocols are followed and said by the end of this month, will have reached 10,000 patrons attending Frenger Pool and Regional Aquatic Center during the Covid-19 period.

Mr. Catanach informed the Board the City Employee Wellness Program offers Stick to It Challenges where one walks a certain number of minutes or set daily fitness goals, which has over 30 participants. He said they also have 150 participants in the Ziggy Challenge -employees walking, exercising to earn points for incentives.

Mr. Catanach said staff is also looking to see what they can do to continue virtual music in the park and to see what the 4th of July will look like.

Ms. Delgado informed the Board she did sent an email to the State of New Mexico to ask what kinds of programming and activities can be done in yellow status, to make sure staff understands how certain spaces are defined.

Ms. Delgado informed the Board a presentation on how the splash pad water is filtered and cleaned at the next Board meeting per Mr. Montgomery’s inquiry.

9. Board Member Comments

Chair McClure acknowledged she has seen the Parks and Recreation videos on Facebook.

Mr. Engle reported he reached out to his Councilor regarding the District 5 new park, letting her know the Board’s concern that the Resolution would set a precedent and other Councilors would want Parks and Recreation to add more parks than they can sustain. He said Councilor Bencomo’s response was she recognized the urgency of the park in District 5 which is why the rest of the Council went along with it, and she would consider any future resolutions of that kind within the context of Parks and Recreation being able to sustain the development and maintenance.

Mr. Engle said for everyone to stay healthy and get vaccine as soon as possible.

Mr. Thompson said he also reached out to his Councilor and Councilor Abeyta-Stuve thought it was a one-off situation and would be more cognizant as move forward with other requests.
Mr. Montgomery apologized for arriving a little bit late to this meeting. He said he appreciates Ms. Nevarez and Ms. Delgado’s comments on the splashpad water and looks forward to hearing more on this at the next meeting. Mr. Montgomery wished everyone a wonderful February.

Ms. Schuller thanked Board and staff for everything.

Chair McClure said she also reached out to Councilor Gandara and like the other Councilors, and received similar response – a one-off, recognize issue. Ms. McClure got a sense it was prerogative of City Councilors to do due diligence. Chair McClure said for next meeting, will hear from Mr. Granillo what a new park adds to workload. She said there was discussion with Councilor Gandara that they aren’t quite aware of affects of new park, or median and would like thru the Board see more detail. Ms. McClure said Councilor Gandara would also like to know how other programs, i.e., Mano y Mano, could aid Parks and Recreation.

Chair McClure thanked Board and staff for all they do.

10. Adjournment

Mr. Montgomery moved to adjourn, seconded by Mr. Engle.

Eric Montgomery - Aye
Stan Engle - Aye
Jeff Thompson - Aye
Megan Schuller - Aye

Motion carried unanimously. Meeting adjourned at 7:43 p.m.

Hazel Nevarez, Recording Secretary  Cassie McClure, Chair
The Parks and Recreation Advisory Board held a meeting on March 18, 2021 at 6:01 p.m. via zoom webinar.

Parks and Recreation Advisory Board Members Present:

Cassie McClure – District 1
Stan Engle – District 4
Maryln Zahler – District 3
Megan Schuller – District 6
Jeff Thompson – District 2

Parks and Recreation Advisory Board Members Absent:
Eli Guzman n- At Large
Eric Montgomery – District 5

Others Present:
Phil Catanach, Recreation Administrator, Parks & Recreation
Sonya Delgado, Director of Parks & Recreation
Silas Garcia, Certified Pool Operator, Parks & Recreation
Franco Granillo, Parks Administrator, Parks & Recreation
Catherine Mathews, Landscape Architect, Parks & Recreation
Hazel Nevarez, Senior Office Manager, Parks & Recreation
Robert Nunez, Youth Services Administrator, Parks & Recreation
Gregory Shervanick, Public

The Parks and Recreation Advisory Board Meeting of March 18, 2021 via Zoom webinar and was brought to order at 6:01 p.m. by Chair McClure and recognized as having a legal quorum.

1. **Introductions**

   1.1 Parks and Recreation Advisory Board Members

       Board members introduced themselves and stated the district they represent.

   1.2 Parks and Recreation Staff

       Staff introduced themselves and stated their position.

2. **Conflict of Interest**

   No Conflict of Interest.

3. **Approval of Agenda**
Mr. Engle moved to accept agenda as presented, seconded by Ms. Schuller. There was no discussion. Motion carried unanimously.

4. Approval of Minutes

Ms. Schuller brought to attention there was a set of minutes where there were two sets of minutes to be approved under section 4, where the date reflected incorrect date of November 19, 2021, and should be January 21, 2021. Ms. Nevarez will review.

Ms. Schuller moved to approve minutes of the February 18, 2021 Parks and Recreation Advisory Board meeting, seconded by Mr. Engle. Motion carried unanimously.

5. Public Participation

Through the Zoom Q&A, Mr. Shervanick reported the Pomeroy Plaque will be installed Monday, March 22, 2021 and KRWG will film.

6. Action Items

There were no action items.

7. Discussion Items

7.1 Park Maintenance Impact – Franco Granillo, Parks Administrator

Mr. Franco Granillo gave a PowerPoint presentation on Maintenance Impact of New Facility. The presentation provided information to consider when a park is added. Information was provided on programs that assist with the maintenance of facilities, the Mano Y Mano program, and the utilization of inmate crews. Mr. Granillo discussed utilization of Adopt a Spot, developing public/private partnerships, extension of schedules, and categorizing parks as ways to offset maintenance issues resulting from added facilities.

Mr. Engle, District 4, commented Mano Y Mano sounds like a great program and asked why there is such a high turnover with the people who participate with Mano y Mano. Mr. Granillo said he is pretty sure Mano y Mano is set up on a lottery system, which means new people enter the program as the program progresses. Mr. Engle asked if there were any statistics to show actual benefits to the participants. Mr. Granillo said he doesn’t have the information but will check with Natalie Green (from Economic Development) and will send forward what he finds out.

Ms. Schuller, District 6, asked if Mr. Granillo has put together a background history of what the number of employees have been to number of parks in the past compared to more recent number of employees with the increased number of parks, should this information ever need to be provided to City Council. Mr. Granillo said this was a good question and said he has been with the Parks Department since 2008, and staff has increased since then from 50 to 57. He also said that around this time, eight employees were lost during the recession which have never been
recovered. Ms. Schuller said this is good data to have for more ground to stand on to request more funds for staffing.

Mr. Thompson, District 2, asked when putting together expense for hiring a two-man crew/truck for the 40-hour work week per employee, what is the return on a per park basis, how many parks can this crew do during the course of a week. Mr. Franco said this was a good question and said when a two-man crew is hired, another 10 or 12 acres can be handled a week. Mr. Thompson asked how many acres has been added in the last five to six years without added crew. Mr. Granillo said in the Metro Verde area, from 18 to 24 acres.

Ms. Zahler, District 3, asked, addressing Ms. Delgado and Mr. Granillo, if the City Manager has been invited to a meeting on this issue. Mr. Granillo said there have been several meetings with the previous City Managers and Ms. Delgado has met with the current City Manager and Assistant City Manager, and they are aware. He said they are also aware staff works very hard to stay on top of things. He added that when developing budget, Parks and Recreation is mixed in with other departments such as Fire, Police, Public Works. Ms. Delgado added these issues have been discussed with Mr. Pili and Mr. Taumoepeau, City Manager and Assistant City Manager. She said the need for staff has been discussed because several acres continue to be added every year. Ms. Delgado added a lot of temps on the parks side of the house are utilized to ensure staff stays on schedule and all the property parks is responsible for is taken care of.

Ms. Zahler, District #3, suggested a meeting needs to be held with not only the City Manager but recommends the Mayor be there. Ms. Zahler said she would like to know what the City Manager and the Mayor has to say about this issue. Ms. Zahler said staff should also check if other Parks and Recreation departments in the country are in this situation and find out how they handle it. Ms. Zahler also suggested looking into another program other than inmate crews since guards have to be present. She referred to a program she watches called Pit Bulls and Parolees, where parolees are used, and no guards are needed. Ms. Delgado informed the Board a work session will be scheduled to discuss this topic and will let the Board know when it will be. Ms. Delgado said she will look into the parolee possibility as well as get information from Parks and Recreation departments across the country.

Ms. Zahler, District 3, asked if there was any objection to her meeting with the Mayor. Ms. Delgado deferred this to Chair McClure. Ms. Zahler said she would like herself and Chair McClure to meet with the Mayor. Ms. McClure said she would be happy to do so.

7.2 Water Circulation Systems – Phil Catanach, Recreation Services Administrator

Mr. Phil Catanach informed the Board he is partnering with Mr. Silas Garcia, Certified Pool Operator, to provide a two-part presentation.

Mr. Catanach gave a PowerPoint presentation on Splash Pad Water Systems, discussing their popularity, affordability to traditional pool facilities, and informed the Board of the two splash pad locations City currently operates, Metro Verde Splash Pad – a flow through system, and the
Plaza de Las Cruces Interactive Fountain, a recirculating system. Mr. Catanach discussed the two different types of systems along with their pros and cons. Mr. Catanach informed the Board all future City of Las Cruces Splash Pads will operate with recirculating systems as the New Mexico Environmental Department (NMED) and the Model Aquatic Health Code discourage non-recirculatory systems use. Mr. Catanach said there are two more splash pads in the planning process – Unidad Park Splash Pad on E. Hadley Ave. and Apodaca Park Splash Pad at Apodaca Park and added Councilors have discussed having additional splash pads at various locations.

Mr. Catanach introduced Mr. Silas Garcia to discuss maintenance of the splashpads.

Mr. Silas Garcia informed the Board staff currently maintains six facilities with three in the planning. He informed the Board currently there are three certified pool operators, and, in the summertime, there are three temps to maintain all six swimming pools and splash pads. Mr. Garcia discussed the scheduling from 6 a.m. to 6 p.m. and required maintenance of the six facilities to be in compliance with NMED as all the pools and splash pads require four-hour checks.

Mr. Catanach asked Mr. Garcia to inform the Board how the chemical checks at the splash pads works. Mr. Garcia explained the chemicals have to be checked every four hours which is basic and doesn’t take very long unless they have to backwash depending on the bather load. He said sometimes they have to backwash two or three times a day because the interactive fountain is only a 1,200-gallon tank. Since the splash pads don’t have lifeguards on duty, the Certified Pool Operators have to be at the splash pads every four hours to do the checks.

Mr. Catanach informed the Board besides the two fountains, staff also operates the Regional Aquatic Center, Frenger Pool, Laabs Pool, East Mesa Pool, and soon the new 15-meter pool with three Certified Pool Operators and sometimes three temps. He added it takes a lot of expertise to be a Certified Pool Operator to make sure the chemicals in the pools are safe and that they are operating at the right levels. He said Mr. Garcia and his crew are probably the best in the southwest and are good at what they do.

Mr. Thompson, District 2, asked if the Mesa Verde splash pad is the only flow-through system as far as splashpads go. Mr. Catanach said yes. Mr. Thompson asked if Mr. Catanach said it was due to be retrofitted with a filtration system. Mr. Catanach said no, there was a possibility, but it is very expensive, so he doesn’t see this happening. Mr. Thompson expressed surprise that we use over 2½ million gallons of water annually and asked if it is known what the annual water consumption of the average household is. Mr. Catanach said he did not know. Mr. Thompson said he likes the idea there might be a catch tank where the water could repurpose and asked if this is possibly in the works. Mr. Catanach said this is something that has been looked into and costs as much as the splash pad but might be done in the future, especially if the pressure is there. Mr. Thompson asked if there was no initial outlay of cash for this splash pad because it was a gift from the builder. Mr. Catanach concurred. Mr. Catanach said this is why NMED is highly suggesting that flow through systems not be used for future splash pads. Mr. Thompson asked what the annual water usage is on the recirculating systems. Mr. Garcia said it is a 1,200-gallon
tank and during the non-peak season, the tank is drained once every two weeks and during the peak season, it is drained every other day.

Mr. Engle, District 4, asked to be reminded what the size of the crew was. Mr. Garcia said there are three CPO’s with three temps during the summer. Mr. Engle commented that with the popularity of splash pads and with Councilors wanting them in as many parks as possible, more crew would be needed so could be the same issue as when parks are added, so unless there is more funding, staff would have to find efficient ways to use current staff. Mr. Garcia concurred, saying the hard part about this is to be in compliance with NMED, the splash pads have to be checked every four hours and it will all depend on when the splash pads are open seven days a week.

Mr. Engle, District 4, also asked on behalf of Mr. Montgomery, District 5, if staff can check for the presence of any bacterial or viral agents in the recirculating system, has any been found, and are there procedures to sanitize the system. Mr. Garcia said there are procedures that are followed - NMED requires the free chlorine levels be kept between 2 and 10 parts per million. He added the Regional Aquatic System also has along with the chlorine, a UV system which is a supplemental disinfection and now NMED is requiring this on all the circulatory systems going forward. Mr. Garcia said the Plaza de Las Cruces interactive fountain does not have a UV system but has a sand filtration system and the chemical levels are kept between specs. He said as far as testing for bacteria, no – the chlorine disinfects everything. Mr. Garcia said what has happened twice is loose stool, and the pool is shut down to super chlorinate the swimming pool and leave it shut down for 12, 13 hours. As for the deck at the splash park, the decks are disinfected every other day.

Ms. Schuller, District 6, expressed concern on amount of water being used and appreciates that as new splash pads come on, that they are recirculatory.

Chair McClure, District 1, asked if recirculatory is a recommendation but is it in our master plan for development too. Ms. Delgado said it is a requirement of NMED to have a recirculatory system. She said staff is aware that they would like to put a recirculatory system in at Metro Verde but will have to find a funding source and is on their list of many items.

Mr. Thompson, District 2, asked what the cost is to put in a splash pad. Ms. Delgado said it depends on the size and the amenities, but about $550,000.00, which does not include the restrooms or showers that are also needed.

Chair McClure, District 1, commented she looked up how much water a residential customer uses which is about 5,000 gallons. Mr. Thompson, District 2, said he also looked this information up which is 3,000 gallons per month per person in a household, is the average and so the 2.5 million gallons would provide water for 173 households.

Mr. Engle, District 4, asked on the non-recirculatory splash pad, did the water go into the drainage or into the actual sewage system. Mr. Catanach said it goes down the drain into the City’s sewage system. Mr. Engle asked if this is the one on the East Mesa. Mr. Catanach said yes. Mr. Engle
asked if this is the area where the sewage water gets reclaimed for landscape use. Mr. Catanach said he did not know and deferred the question to Ms. Catherine Mathews. Ms. Mathews said the wastewater in the Metro Verde area of town is not reclaimed but is slated for in the future in the Utility’s plans. Mr. Engle did agree this is a massive waste of water.

7.3 Project Updates – Catherine Mathews, Landscape Architect

Ms. Catherine Mathews gave a PowerPoint presentation on the Parks and Recreation Department Capital Improvement projects for the current fiscal year and some of the park impact fee projects which are slated for next year. She reported the following:

Park Impact Fee (PIF) Projects – parks that are supported by Park Impact Fees:
- Apodaca Park Aquatic Playground & Multi-Use Path/Council District 1 – in planning process and will be receiving an Outdoor Recreation Legacy Partnership Program (ORLPP) Grant to tune of $750,000. This amount will be matched by PIF. The National Park Service issues the grant through the State Parks. For the final approval stage, the State Historic Preservation office is evaluating our cultural resources study to make sure we’ve complied with all the requirements of the federal grant.
- East Mesa Public Safety Complex Park/District 6 – supported by $100,000 of PIF. Project is in the planning stages trying to figure out how this project, which likely would be a trail head, would coordinate with the East Mesa Recreation Complex Go Bond Project.
- Highland Park/District 5 – supported by PIF as well as Hold Harmless Gross Receipts Taxes. There is about $874,000 available which will go toward construction of this park which will be located adjacent to Highland Elementary School at Emerald Ave., north of Highway 70.
- Metro Verde Neighborhood Park/District 5 – As developer builds parks in the Metro Verde subdivisions and seeks agreements with City Council to reimburse for the construction, there is funding for this.
- National Fitness Campaign Outdoor Gym II/District – the second gym was supported by PIF. This gym has been completed and is located at the East Mesa Recreation Center on Porter Drive adjacent to the Fire Station, across the street from Sage Café and down the street from the East Mesa swimming pool.
- Pueblos at Alameda (Calle Abuelo Neighborhood Park)/District 6 – The last $15,000 of PIF will be used to install play equipment. This project is near completion and it includes a piece of artwork called the Tree of Life Sculpture, selected by the City Art Board for this location.

Ms. Mathews said the amount of PIF designated for projects this fiscal year was just over $2 million. Ms. Mathews provided aerial views of these projects in her PowerPoint.

Ms. Mathews said for this next fiscal year, new expenditures of PIF budget are not being proposed, but to continue with carryover of the Apodaca Park Aquatic Playground & Multi-Use Path, Highland Park, East Mesa Public Safety Area Park and Metro Verde Neighborhood Park. She said the budget has been expanded because the partnership is resulting in a lot of parks that meet our goals as outlined in the Parks & Recreation Masterplan, which goal is to have neighborhood parks
within a 10-minute walk or quarter mile distance from all residential development and is worthy of PIF.

Ms. Mathews also reviewed other FY21 Capital Improvement (CIP) Projects which will likely carryover to next fiscal year. She said she wanted to show other projects that are supported by other funding sources, i.e., City Bonds, State Legislative grants, other grants, and the like:

- **Ballfield/Soccer Field Renovations** – Provencio Van Dame lighting upgrades to allow space to be useful for nighttime play. Is near completion, have spent all but $1,500 which will be spent on drinking fountains, also with the support of some of Parks & Athletics operating budget.
- **BMX Track Parking Lot & ADA Improvements** – there is budget available for this but Facilities Management, a section of Public Works, will be managing this project.
- **Chandler Tank** - has established budget from a Bond with the City. Will be used to design and construct park at Chandler Tank based on master plan developed in concert with neighbors.
- **Meerscheidt Recreation Center Wood Flooring** – Project has been finished and walkthrough to generate punch list has been completed just this week.
- **Paz Ballfield Parking Lot Improvements** – similar to BMX track parking lot improvements. Facilities Management will be leading this project.
- **Skate Park Improvements** – received $245,000 legislative grant from 2020 legislative session. In process of evaluating the responses to request for proposals for design build. Anticipate in the next two to four months to get this under contract.
- **Gomez Lot Parking Lot Improvements** – similar to other parking lot improvements. Will need the expertise of Facilities Management.
- **Tortugas Trail** – in conjunction with the Dona Ana MOVE Trail – both received legislative grants which support a grant receive from the Paso del Norte Foundation to construct trails. Will be working with partners in Town of Mesilla and Dona Ana County to partner with Elephant Butte Irrigation District to construct trails that connect City trail systems thru other neighboring communities (Town of Mesilla and Dona Ana County).
- **Current Multi-Use Field Lighting-PVD/Soldados** – there is established budget for Soldados multiuse field lighting, $52,000. Not enough to do much other than design.
- **General Park Equipment and Renovations** – remainder of legislative grant. Budget amount has been spent on dog poop bag dispensers.
- **Interstate 10/Interstate 25 Interchange Erosion Control** – legislative grant of $418,000. City is seeking change to this grant requesting legislature reauthorize funding for use in landscaping medians within the City limits. It can support $50,000 legislative grant for design and construction of medians landscapes on Lohman and Sonoma Ranch Blvd.
- **Median Landscaping** – above $418,000 legislative grant will also support this which is funded by City Bonds and Hold Harmless Gross Receipts Tax funding that are expended on City Bond Median Phase 1, which is in construction and nearing close out. Working with contractor to finish punch list items on Phase 1 and leave $850,000 to go into Phase 2, design.
• Nevada Ave. Cool Corridor – working on punch list items. Nearing completion of the close out processes.
• Park Security and Lighting – legislative grant in support of security cameras and additional lights at Veterans Memorial Park. Security cameras have been installed and electrical service has been upgraded so electrical system can support additional lighting. Have initiated planning process of installing additional pathway lights as requested by Veterans who use this park. Anticipate completion of this project this coming calendar year.
• Parks Smart Controllers and Booster Pumps - supported by a Water Smart Grant by the Bureau of Reclamation. Expended funds on installing smart controllers at athletic facilities on Hadley and installed booster pumps at Apodaca Park and Soldados Multiuse fields. Working on the planning process for analyzing the existing irrigation systems and determining the size required for those pumps. Anticipate completion of this project this summer.
• Pioneer Women’s Park Improvements – received additional $200,000 legislative grant for repair/restoration activities of gazebo.
• Las Cruces Lateral RTP Trail – received from New Mexico Department of Transportation a Recreational Trails Program grant (RTP) of $108,000 for design of the trail along the Las Cruces Lateral from University Ave. to Main St. Have solicited proposals, have selected contract consultant, negotiated scope of work and price for design work with assistance of Public Works. Anticipate contracting with consulting this coming week.
• Veterans Park Parking Lot - City acquired property north of Veterans Memorial Park. Budget established from City Bonds to design and construct parking lot. Design is nearly complete and anticipate bringing forward to Board at next months meeting.

Ms. Mathews said total of these projects total approximately $9 million.

Ms. Mathews said in addition are two GO Bond projects being managed by Public Works and consulting with Parks and Recreation:
• Recreational Walking, Jogging, and Biking Trails - $2,700,000 budget in design/construction phase.
• Improvements to Park, Including Sports Fields, and other Related Facilities - approximately $17,000,000 budget in design/construction phase – include East Mesa Public Recreation Complex, other sports courts improvements, two dog parks.

Ms. Mathews said total Capital Improvement Projects total just over $24 million.

Ms. Mathews also mentioned other non-CIP projects:
• Women Veterans Monument Lighting Renovations.
• Metro Verde Voluntary Assessment District (VAD) Sonoma Ranch Blvd. Mile 2 Landscape
• AARP Fit Lot Outdoor Fitness Area
• New Skate Park
• Metro Verde VAD Red Hawk Blvd. Landscape
• First Responder Memorial
• Branigan Park Master Plan
• Klein Park Basketball Court Renovation
• Trail and Park Wayfinding and Leave No Trace Signage
• Land Acquisition for Park in District 5

Mr. Engle, District 4, commented on median landscaping – he wants to make sure the design takes into account the runoff. Ms. Mathews concurred.

7.4 Covid-19 Updates – Sonya Delgado, Director of Parks & Recreation

Ms. Delgado had to leave for another meeting so on her behalf, Mr. Phil Catanach spoke on Parks & Recreation’s Covid-19 update. He informed the Board with New Mexico back in the Yellow category, lap lane swimming and fitness areas, and tutoring have opened. Parks and Recreation staff have been working on a Covid-19 vaccination registration promotion by going daily to grocery stores and encouraging the community to register for the vaccine. Mr. Catanach said in the first two and a half weeks of the program, up to 600 people were reached and have had up to 200 registrations. Mr. Catanach said staff is working hard to get programs going:

• Parks staff will be meeting with local leagues to open sports fields
• Meerscheidt Recreation Center will be open for fitness beginning March 22, 2021
• Frank O’Brien Papen will be open for Table Tennis and activities such as walking programs
• Expanded tutoring and After School Programs, outdoor youth activities, continued recording of Music in the Park.

Mr. Catanach said staff is excited to start adding activities and want to be ready when can open more programming.

8. Staff Member Comments

Mr. Catanach reported lap lanes are open at Regional Aquatic Center (RAC) and Frenger Pool. Fitness Center is open at RAC and will be open at Meerscheidt Recreation Center (MRC). Frank O’Brien Papen Community is getting ready to offer limited table tennis, are starting a new walking program, and are offering a virtual marathon – a six-week 26-mile walk/run/crawl and are going to start hiking again. Staff is working the vaccine promotions and helping at the vaccine distribution events. Mr. Catanach said he is very proud of his staff. He added Meerscheidt Recreation Center’s league gym floor was replaced, a full court gym that goes north, south, east, and west. He said the recreation section is getting ready to hire summer staff.

Mr. Robert Nunez said through Youth Services, the Juvenile Citation Program (JCP) continues to work virtually, classes have been filling up. He said Children, Youth & Families Department (CYFD) has provided a new platform to request monthly reimbursement, so supervisors and staff are working diligently on those items. Mr. Nunez said JCP is hoping to introduce in person community service with clients soon and will try to get more face to face with them as guidelines and changes permit.

Mr. Nunez informed the Board Keep Las Cruces Beautiful (KLCB) is preparing for the Great American Clean Up in April. He said KLCB is also looking to finish up the fiscal year with a few district clean ups through out the City, in May and June, before they are done with this year’s grant process. He added KLCB is working this weekend with Las Cruces Police Department (LCPD) and volunteers at Burn Lake for a cleanup.
Mr. Nunez informed the Board the Out of School Time program is providing tutoring throughout the day at various city locations. He said they have met with the schools today to see how they can get into to the schools in an abbreviated manner, following Covid-19 guidelines and Las Cruces Public Schools procedures to offer some type of after school program for families and youth in need with schools opening.

Mr. Nunez informed the Board the Youth Services section is looking to offer some type of spring break program for current youth in the program, following Covid-19 guidelines.

Mr. Catanach reported the Parks Department is working with the area Leagues and Associations for opening sports fields in the near future.

Ms. Nevarez said she has reviewed minutes from February and did see correction that needed to be made but would like to review recording to make sure the rest of information is correct and will have correction placed on next month’s meeting agenda.

9. Board Member Comments

Ms. Zahler, District 3, said she will be in touch with the Mayor next week. She commented she watches Animal Planet on Saturdays on Cable, Channel 50 and will find out more information on Pit Bulls and Parolees.

Ms. McClure said she received comment from Mr. Shervanick passing along his hello to Ms. Zahler.

Ms. Schuller inquired on the Wi Fi status mentioned in a previous meeting. Ms. Schuller commented driving by the East Mesa Outdoor Gym and said there seemed to be a lot of people there with the nice weather, so gym is a great addition for this area.

Mr. Catanach responded to Ms. Schuller’s inquiry about internet. He said just this week, Comcast Cable has put internet (Lift Zone Project) in at Meerscheidt Recreation Center and at Regional Aquatic Center. He added internet is wanted at all recreation centers, seven locations between Parks and Recreation and Quality of Life.

Mr. Engle thanked Park staff for all their hard work and acknowledged their work on getting the word out on the vaccines. He added wear your masks, get your shots.

10. Adjournment

Mr. Thompson moved to adjourn, seconded by Mr. Engle. Motion carried unanimously. Meeting adjourned at 8:00 p.m.

Hazel Nevarez, Recording Secretary Cassie McClure, Chair
